PROFESSIONAL EXPERIENCE

Independent Consultant

Dec 2024 – Present | Stuttgart Region, Germany (Remote/Hybrid)

Self-Employed · Project Management, Business Development & International Cooperation

- Concept developer and consortium coordinator for BIO-Grid Africa, an AI-controlled bio-solar-hydrogen microgrid architecture for green-ammonia production and rural energy access in Southern Africa; coordinated a multi-country European–African research consortium and built a modular proposal library positioned across Horizon Europe and German federal (BMFTR/BMW) hydrogen funding instruments.
- Leading business development and design of BRIDGE-Sudan, an employer-linked TVET pilot for returnees and IDPs across two Sudanese states (target cohort 100–150); convened the partner consortium, developed the demand-led delivery model with recognition of prior learning and matched placement, and produced bilingual letters of interest and employer-engagement materials.
- Developed funding proposals, letters of interest, and capability statements for donor-funded programs; conducted funder mapping and instrument analysis across EU, GIZ/BMZ, RVO, and UN channels.
- Designed M&E frameworks and digital data-collection tools (KoboToolbox multi-country survey templates) and produced trilingual (English/German/Arabic) program documentation for cross-border partners.
